

HALOGEN - Side Stream 120VAC HALOGEN

- HaloMP5 - Side Stream or Immersion Total Chlorine Continuous Monitoring System.
- Measures & Display (5) Parameters Simultaneously.
- Total CL₂, pH, ORP, Conductivity, & Temperature.
- System is equipped with (4) 4...20mA or MODBUS RTU.
- 120VAC operation.
- DryGLAS technology ensures robust operation even if the line or sensor goes totally dry.
- SensiCLENE self-cleaning system reduces maintenance through an always-on cleaning method.
- NO membranes, reagents, or electrolyte.
