## City of Ocala Water Treatment Plant #2 Phased Improvements

Phases	Phase Duration	<b>Description</b>	tment Plant #2 Phased Improve Components	Water Supply	Total Cost
1 114303	- muse Dui ation	2 escription	(3) 24-inch diameter production	,, ист опры	10011 0030
	June 2019 -	Lower Floridan	wells, each with a five million		
1	September 2020	Wells	gallon per day (mgd) capacity	N/A	\$2,411,250
1	Septemoer 2020	Wells	gunon per day (mga) capacity	1771	Ψ2, 111,230
			(3)150 horse power (HP) pumps;		
			3 motors;		
	June 2020 -	Pumps, motors and	3 control panel with variable		
2	September 2021	VFDs	frequency drive (VFD).	N/A	\$480,000
			(1) 2,000,000 gallon storage tanks;		
			1 UFA well	Includes blending of	
		Ground Storage tank,	(1) 150 horse power (HP) pump;	potable water with LFA	
		Upper Floridan Well,	1 motor;	water in storage tank prior	
	June 2021 -	Pump, Motor and	1 control panel with variable	to sending out for potable	
3	September 2022	VFD	frequency drive (VFD).	use. ~0.25 MGD	\$4,215,900
				Includes blending of	
			1 Large HSP;	potable water with LFA	
			2 Jockey HSP;	water in storage tank prior	
	June 2022 -	HSP Building and	HSP Building;	to sending out for potable	
4	September 2023	Pumps	Associated Equipment	use. ~0.25 MGD	\$3,985,600
+	September 2023	Concentrate	Associated Equipment	usc. ~0.25 WOD	\$3,763,000
		Transmission Pipe;	19,000 LF of 12" Conc.	Includes concentrate	
		Concentrate Storage	Transmission Main; 2.0 MG	transfer piping for 3 NF	
	June 2023 -	Tank; & Emergency	Concentrate GST; Emergency	Trains' capacity; and	
5	September 2024	Generator	Generator; Associated Equip.	Emergency Generator	\$12,503,867
3	September 2024	Generator	Generator, Associated Equip.	Emergency Generator	\$12,303,807
			1 NF Train (2.5 MGD);		
			2 Cartridge Filters;		
			2 NF Feed Pumps;	Includes 2.5 MGD of LFA	
			Clearwell/ Transfer Pump Station;	produced water blended	
			2 Degasifiers;	with Well #6 and/or Well	
	June 2024 -	NF Membrane	1 Odor Scrubber;	#11. Total water generated	
6	September 2026	Treatment Train #1	Associated Equipment	~3 MGD available.	\$11,526,250
			2.0 MG GST;	MGD of LFA produced	
		NF Membrane	1 NF Train (2.5 MGD);	water (5.0 MGD total)	
		Treatment Train #2	1 Cartridge Filter;	blended with Well #6	
	June 2026 -	& 2.0 MG Ground	1 NF Feed Pump;	and/or Well # 11. Total	
7	September 2027	Storage Tank	Associated Equipment	water generated ~6.0	\$8,856,750
				Includes an additional 2.5	
				MGD of LFA produced	
			1 NF Train (2.5 MGD);	water (7.5 MGD total)	
			1 NF Feed Pump;	blended with Well #6	
			1 Degassifier;	and/or Well # 11. Total	
	June 2028 -	NF Membrane	1 Odor Scrubber;	water generated ~9.0	
8	September 2029	Treatment Train #3	Associated Equipment	MGD available.	\$6,662,750
Total Estima	*	FA Produced Water	2		\$50,642,367
